Section 6.2

I believe that the locality and rural environment is more suited to older people and established families who have an appreciation of outdoor activities rather than single and young people who require more social facilities and better transport links. To facilitate this more 2 and 3 bedroom houses and bungalows rather than 1 bedroom and multi-occupancy units would better suit the environment. I also believe that it is vital that the property design is of a high standard and goes beyond what mass builders believe to be the vernacular of the area. Something that I feel is lacking in the recent development seen. It is also important that access to existing properties is not compromised by any new development and that this is stipulated in the plan.

Section 9.14

As stated the village is currently deemed desirable and is visited by people who use the existing footpaths. Building of additional properties would have an impact on the natural beauty and feel of the village, so it is essential that property numbers are carefully considered. These additional properties will also increase the useage of public rights of way leading to increased littering and dog fouling which is already problematic. It is therefore essential that adequate provision is made to cover this so that Ombersley remains an attractive place to both live or visit.

Please use a separate form for each representation.

Please state whether you would like to be notified of the Council's decision on the Neighbourhood Plan proposal:
