Emily Barker

Planning Services Manager

Historic Environment

We welcome that the Plan recognises and is positive towards the need for new development to be sympathetic to the historic character and pattern of development, as well as to the parish's rural landscape, heritage assets and local green spaces.

We also commend the actions taken to better reference the history of the parish, and how this has shaped its modern character and distinctiveness, as well as too the parish's traditional farmsteads, and also welcome the Plan's positive commitment to Green Infrastructure.
